

CHARTER MEDICAL

EXECUTIVE SCREEN

EXECUTIVE SCREEN

The Executive Screen has been designed for people who are in their forties and over, or for people of any age who wish to have a most comprehensive health check from head to toe.

The Screen can last up to two hours and it involves a consultation with our Senior Health Screening Doctor for a physical examination and blood tests. Fasting for twelve hours before your appointment time is required, you can have water only. If you are on medication, please take it in the usual way. After your health screen, a light meal or refreshments are provided in the Maldron Hotel next door.

Upon completion of the screen, our doctor will draw up a full debrief, which will be posted to you within ten working days. It will include your tests results, explanations, recommendations and any follow up the doctor will recommend.

This screen is ideal for those who recognise that, as they get older, they need to take better care of their health. This rigorous health screen encompasses a broad range of diagnostic assessments to measure your health status and thus help maintain a healthy lifestyle for the future.

An Executive Screen is recommended every 2 years.

A discount is applied if you have private health insurance or a medical card. Group and corporate discounts are available. Please contact us for details.
